SERVICES

Custom Design & Engineering

We often get involved long before the printing occurs. We work with architects, designers and builders during the construction phase as needed, and have the ability to produce shop drawings, plans, prototypes and even 3D renders of signage projects as required.

Graphic Design & Illustration

Great visual design is critical for the success of printed material, and we provide graphic design and illustration as an in-house service. Kody is our resident designer, and also moonlights as one of Perth's best digital illustrators - you may have seen his work around!

Signage Installation & Removal

We have a skilled installation team who are our feet on the ground. We service a large number of shopping centres and commercial builders in Perth, and know how important it is to ensure minimal disruption to trades or site works. Our installation team has as relevant permits including white cards, EWP, Working at Heights, and Sassi and Rapid Global inductions.

OUR PEOPLE

We are exceptionally proud of our dedicated team. Their passion, drive and motivation is what allows us to excel in client service, and delivery of outstanding finished products.

As a small, family run business, camaraderie is critical and we enjoy a supportive culture. Excellence in client service and finished product is our common goal, and it is not uncommon to see the team going above and beyond normal business requirements to ensure our projects are delivered to the standard we have built our reputation upon.

EMMALENE

Emmalene (Em), the glue of the ship, provides the team with organisation through accounts and staff management. She will often be the first voice you hear when calling into the shop and provides support no matter what you're after.

ZIPPY

Zippy makes it happen. Whether it's a tight deadline or a last minute addition, Zippy always rises to the challenge. He can often be found back in the office late into the wee hours ensuring a customer's project stays on track.
